Project Name	Smart library request workflow
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Smart Library Request Workflow solves the problem of manual and slow library requests by providing an online system where users can request books and track their status easily. This improves efficiency, speeds up the process, and ensures better management of library operations.

Purpose:

The purpose of the **Smart Library Request Workflow** is to solve common issues in traditional library systems by providing a simple and efficient digital solution. It improves the user experience by enabling easy book requests, real-time tracking, and faster approvals. The system uses familiar online platforms to increase adoption and ensures better communication through notifications and updates. It also helps build trust by reducing delays and improving transparency. Overall, it enhances library operations by understanding current challenges and delivering a more effective and user-friendly system.

Smart Library Request Workflow
Problem — Solution Fit Chart
1. CUSTOMER SEGMENTS)
CS
Students, Faculty, Researchers needing quick book access
6. CUSTOMER CONSTRAINTS
CC
Time-consuming request process, xoelsedy status updates and book availability info
5. AVAILABLE SOLUTIONS
AS
Manual request forms, phone or emai quests and ctoion avalability info
2. JOBS-TO-BE-DONE / PROBLEMS
J&P
Requesting books faster, tracking request status
5. PROBLEM ROOT CAUSE
RC
Manual and paper-based request process is slow and lacks transparency.
7. BEHAVIOR
BE
Users depend on manual updates, often have to inquire repeatedly about request status
3. TRIGGERS
TR
Need for specific resource sr urrgent book needs
8. YOUR SOLUTION
SL
Online system for quick book requests, with status tracking and notifications
9. CHANNELS & BEHAVIOR
CH
Website, mobile app for requesting and tracking books
4. EMOTIONS: BEFORE / AFTER
EM
Before: Frustration with unclearad slow process.
After: Relief with fast, transparent, and efficient system
8. YOUR SOLUTION
SL
Online system for quick book requests, with status tracking and notifications
9. CHANNELS & BEHAVIOR
EM
Website, mobile app for requesting and tracking books
4. EMOTIONS: BEFORE / AFTER
Before: Frustration with unclear and slow process,
After: Relief with fast, transparent, and efficient ssystem
Move users along TR → SL → CH → EM
Before: Frustration with unclear and slow process
After: Relief with fast, transparent, and efficient systestem
